

Llwybr Llechi Eryri

Snowdonia Slate Trail

Profwch dirwedd llechi unigryw un o Safleoedd Treftadaeth y Byd Gogledd Cymru a mwynhewch ryfeddodau Parc Cenedlaethol Eryri.

Mae'r llwybr 83 milltir hwn yn ymweld â rhannau prydferth a ymwelir â hwy yn llai aml o Eryri, gan fynd drwy'r cadwyni mynyddoedd mawr, a chynnig amrywiaeth o dirweddau: coedwigoedd, llynnoedd, afonydd a'r môr. Mae'n mynd heibio olion chwareli llechi ac aneddiadau adfeiliedig yn ogystal â thrwy bentrefi bychain a photiau mêl Llanberis a Betws y Coed.

Porth Penrhyn

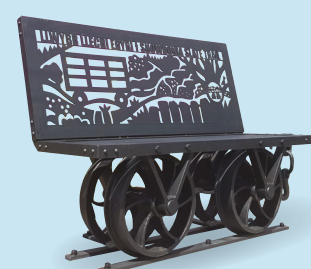

Rydych chi'n sefyll ar lein rheilffordd Chwarel y Penrhyn, a ddaeth â llechi o Chwarel y Penrhyn i'r porthladd, lle cafodd ei allforio o gwmpas y byd.

Adeiladwyd y porthladd rhwng 1790 a 1855 gan deulu Pennant (Douglas-Pennant yn ddiweddarach) o Gastell Penrhyn gerllaw, perchnogion y chwarel. Mae'r porthladd yn parhau i gael ei ddefnyddio fel harbwr masnachol ac ar gyfer cychod pleser, ac yn dal i allforio rhywfaint o lechi o bryd i'w gilydd.

Mae'r strwythurau'n cynnwys swyddfa'r porthladd o'r 1840au, toiledau cylchol y llwythwyr, y warws cynnar a'r siediau locomotif.

Cynlluniwyd y fainc gan Yvonne Amor a'i chreu gan Justin Taylor, y ddau o Benmachno, ac fe'i noddwyd gan Ymddiriedolaethau Laspen, Oakdale ac Ashley, Rehau a Chronfa Dreftadaeth y Loteri.

Cefnogwyd y bwrdd hwn gan Llechi Cymru, Llywodraeth y DU, Elusen Ogwen ac Ymddiriedolaeth Laspen.

Experience the unique slate landscape of one of North Wales' World Heritage Sites and enjoy the wonders of Eryri National Park (Snowdonia).

This 83-mile trail visits less-frequented beautiful parts of Eryri/Snowdonia, passing through the major mountain ranges, offering a variety of landscapes: forests, lakes, rivers and the sea. It passes by the remains of slate quarries and ruined settlements as well as through small villages and the honeypots of Llanberis and Betws y Coed.

Porth Penrhyn

You are standing on the line of the Penrhyn Quarry railway, which brought slate from Penrhyn Quarry to the port, where it was exported around the world.

The port was built between 1790 and 1855 by the Pennant (later Douglas-Pennant) family of the nearby Penrhyn Castle, owners of the quarry. The port remains in use as a commercial harbour and for pleasure craft, and still occasionally exports some slate.

Structures include the port-house office of the 1840s, the loaders' circular privy, the early warehouse and the locomotive sheds.

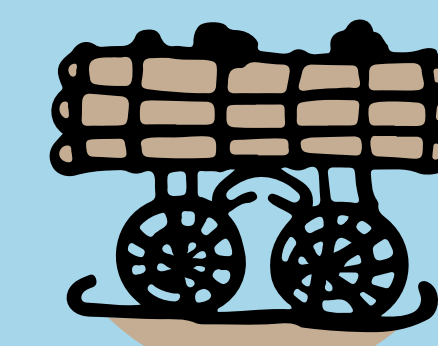

The bench was designed by Yvonne Amor and created by Justin Taylor, both from Penmachno, and was sponsored by The Laspen Trust, The Oakdale Trust, The Ashley Foundation, Rehau and the Heritage Lottery Fund.

This board was supported by Wales Slate, the UK Government, Elusen Ogwen and the Laspen Trust.
